

I personally do not want to be bothered by telemarketers. First of all most of them are clueless about the product that they are selling, but they are good in promoting a product and service that they have memorized. Frankly speaking after I come tired from work do not want someone blabbering for the excellence of some products that most of the time are fake and do not meet the qualities promoted. I am totally against telemarketing and sale of phone lists to telemarketers
